| TEST                                   | PRICE    | TURN AROUND TIME |
|----------------------------------------|----------|------------------|
| Soluble Metals (EN71 or ASTM D5517)    | \$68.00  | 3 weeks          |
| Additional sample (per) for sol metals | \$21.00  | 3 weeks          |
| Panel (8 metals)                       | \$189.00 | 3 weeks          |
| Panel (17 metals)                      | \$370.00 | 3 weeks          |
| pH                                     | \$16.00  | 1 week           |
| pH in sweat                            | \$26.00  | 1 week           |
| pH in tears                            | \$37.00  | 1 week           |
| pH on glue sticks                      | \$32.00  | 1 week           |
| Hexavalent Chromium                    | \$105.00 | 3 weeks          |
| Lead in plastics XRF(6 shots)          | \$53.00  | 2 weeks          |
| Lead in plastics microwave digestion   | \$63.00  | 2 weeks          |
| Lead in Paints                         | \$47.00  | 2 weeks          |
| Mercury                                | \$50.00  | 3 weeks          |
| Gravimetric Extraction                 | \$263.00 | 2 weeks          |
| Alkali/Acid Reserves                   | \$137.00 | 3.5 weeks        |
| Alkali/Acid Reserves (pH only)         | \$25.00  | 3.5 weeks        |
| Scraping for Surface Coatings          | \$40.00  |                  |

|                                        |         |  |
|----------------------------------------|---------|--|
| Drying fee for paints(Canadian Method) | \$25.00 |  |
| Compositing fee- liquid                | \$15.00 |  |
| Compositing fee- solid                 | \$25.00 |  |

**Note:** Additional fees may apply for compositing, sizing, grinding, scraping or digestions/extractions that require techniques beyond standard testing protocols- contact Danielle directly for this information.

**Note:** Rush Analysis fees may apply and are dependent on lab availability for request and time frame requested.

Turn around time is dependent on:

- Nature of samples submitted
- Volume of tests received at the same time
- Complications beyond our control
