WHAT WILL YOU LEARN?
Through this one-year certificate program, learners will gain the knowledge and skills needed to navigate the rapidly evolving health care landscape; improve clinical, operational and business outcomes; and transform health care organizations to reach higher levels of performance.

WHO WILL BENEFIT?
The program is designed for those who have a health care transformation/population health improvement idea or existing project that they would like to improve or refine.

The program will benefit a wide range of health care professionals, from administrators to clinical staff/faculty to graduate or post-graduate trainees aiming to engage in health care transformation work.

PROGRAM HIGHLIGHTS
• Coursework from Duke University’s Master of Health Sciences in Clinical Leadership
• Health care transformation seminars
• Distance-based webinars and learning modules
• Individualized leadership coaching sessions
